

## TUCK'S POST CARD

CARTE POSTALE

(FOR ADDRESS ONLY)

Bikanir seems like a fragment of Arabia transported to India. The town itself seems Syrian or Egyptian with its thick walls of sandstone, its square flatroofed houses, its camels, noted for their speed and strength. There is an excellent gaol where the convicts make carpets that are sold all over the world. There is also a palace of modern Indian architecture, tastefully furnished and provided with electric lights and all the latest improvements.
